

STOP DEPORTATIONS *NOW! NOW! NOW!*

Immigrants are workers and valued members of our communities, not criminals. The politicians and the billionaires they serve are using racist lies to divide us – they want non-immigrants to blame immigrants for all the problems in society, when in reality it's rich people and corporations who hoard all the wealth, raise the rent, make it impossible to afford groceries and destroy the planet.

Deportations rip families apart and devastate communities. Millions of people are part of mixed-status families, meaning some family members are undocumented and others aren't. Mothers and fathers are taken away from their children, breadwinners are ripped away from their families, and our communities lose some of their most hardworking and upstanding residents. We are protesting today to reject this horrible cruelty.

No one makes the decision to leave their home lightly. Most immigrants leave their countries because of extreme poverty or violence. That poverty and violence are caused by the same corporations and politicians that are responsible for so many injustices here in the United States. Immigrant and U.S.-born workers have a common enemy: the billionaire class and the politicians who act as their loyal servants.

This is a grassroots, people's movement that is taking to the streets independently based on our own values and desire to fight. We can't look to the Democratic Party for leadership, because they have waged war on immigrant communities too. Deportations when Obama was in office were higher than under Trump. For the first two years of Biden's term, the Democrats controlled both houses of Congress and the White House but didn't do a single thing to enact immigration reform and legalize undocumented people. Instead, Biden copied Trump's border policy.

Trump controls the government, but we have strength in numbers. So many essential aspects of everyday life function because of the labor of immigrant workers. If we stand up and refuse to be silent, we can end the deportations and win full rights for all immigrants!
